## Helping you achieve more quality, reliable core samples.

Now, from the company that offers you the most comprehensive array of brachytherapy products and services available today, comes the latest Bard offering: the TheraSeed® Pd-103 implant.

A combination of innovative design, consistently reliable dosimetry and remarkable visibility make TheraSeed® treatment an ideal choice for your brachytherapy patients. You can be confident that every TheraSeed® implant order is backed by the total support and seed management services required by clinicians who must meet the time-critical demands of brachytherapy.

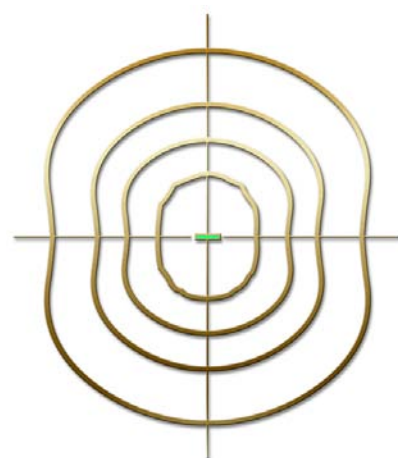

### Proven Performance

- Over 10 years clinical data support<sup>1, 2, 3</sup>
- Studies demonstrate clinical efficacy throughout the Gleason Score Range

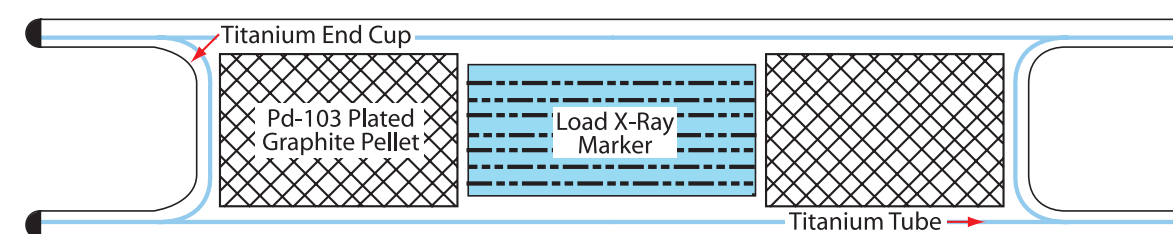

### Source Availability And Quality

- World's largest cyclotron-based Pd-103 supplier
- Wide range of activities available
- 100% assay to ensure accurate activity level

## Innovative Design

- Concave ends may lower the rate of seed migration<sup>4, 5</sup>
- Excellent CT and Fluoroscopic visibility

## Bard Services & Support

**Rapid, reliable order turnaround**

Every BrachySource I-125 implant order is handled efficiently and with careful attention to detail and timing.

**Uniquely comprehensive Fax Order Confirmation**

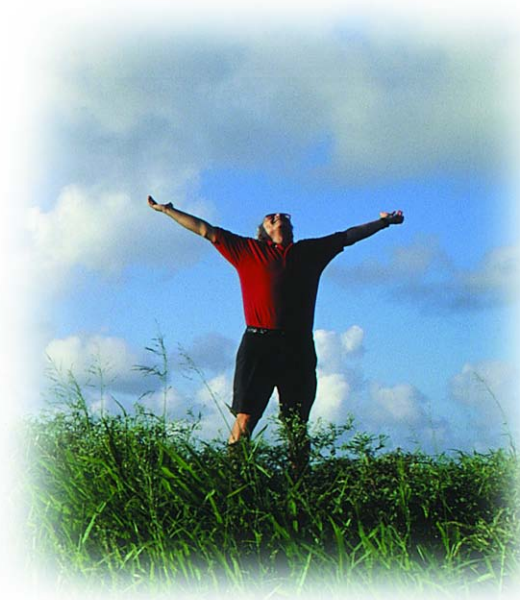

Ensures that your order has been entered accurately and that delivery will be made when you need it.

**Flexible cancellation policy**

In the event of a procedure cancellation, our policy is to do whatever is necessary to accommodate our customers' needs.

**Professional quality support**

On-staff physicist, as well as reimbursement and seed management professionals, assure the highest level of support, whenever and wherever it's needed.

The combination of consistent product performance and the highest caliber of support assures a maximum return on your investment in BrachySource I-125 implants.
